# My Teddy Bear

A Descriptive Piece by: Laetitia Kwek (WF2) Singapore International

I was sleeping when the lights turned on. I hugged my teddy bear tightly.

My teddy bear's name is Ted. He is white in color. I used to have a toy dog with a little green shirt. I put the shirt on and put it on Ted. Ted is the cleanest and whitest bear I ever seen. Every night I put all my soft toys beside me, but I only hug my favorite teddy bear, Ted. Almost everywhere I go I bring Ted with me. Once mummy said, "Laetitia, if you were a bear you would look just like Ted. But first I must shave off a mustache and put it on you." After mummy said that I looked at Ted and thought: If only the mustache was white. I have been wishing to be a polar bear for years.

Ted is very special to me because sometimes mummy turns off my night light and I am very scared of the DARK. That is the reason why I always hug my cute little teddy bear. Do you know what? I always have Ted with me and sometimes I have music when I do my work. Since we live on a mountain and the window is always open, the strong wind blows Ted all around the room. It is like a teddy bear flying. At first when I saw Ted he looked so cute, but when I put the shirt on it looked even cuter. Ted is a trendsetting toy. The first time I brought Ted to school everybody surrounded me and kept asking me about Ted. On the second day I brought Ted to school and everybody had exactly the same bear except for the shirt. They all stayed with theirs all the time.

I was still sleeping when somebody kept saying, "Wake up, Laetitia! It's time to go to school." It was so noisy that I woke up. I threw my clothes off like crazy and put on my school uniform. I did not even think about brushing my teeth, so I gulped down my breakfast and ran to school. Oh no, I forgot to tie my hair! I was too worried about being late for school that I forgot all about Ted.
