

My Favorite Artist

CLAUDE MONET

My favorite artist is Monet. He is famous because he drew interesting things. He drew little dots because he wants light colours. His wife died and he never painted people again. He is imaginative. He drew with light colors such as white and blue.

Monet painted an artwork called "Regatta at Argenteuil". There are three sail boats. I like the sea because it has light colors. I do not like the sky because it has dark colors. Another artwork I like is "Train in the Snow". I like the train because my grandma gave me a toy train. I do not like the smoke because it is black and I don't like black.

The life of an artist is fun because I like drawing. They draw art outdoors and indoors. I don't want to be an artist because I am not very good for now.
